

## Product datasheet

# Anti-Phosphoserine antibody (Biotin) ab9335

## 2 References

### 製品の概要

製品名	Anti-Phosphoserine antibody (Biotin)
製品の詳細	Rabbit polyclonal to Phosphoserine (Biotin)
由来種	Rabbit
標識	Biotin
特異性	Specifically recognizes both free-phosphoserine, serine-phosphorylated peptide and proteins. Does not cross-react with ATP, phosphotyrosine, peptidyl phosphothreonine and serine. Slight cross-reactivity with free phosphothreonine. Readily reacts to known phosphoproteins such as phosvitin and alpha casein.
アプリケーション	<b>適用あり:</b> WB, IP, ELISA
種交差性	<b>交差種:</b> Species independent
免疫原	BSA and KLH-phosphoserine conjugates.
ポジティブ・コントロール	Use Mouse brain extract for Western Blotting or synthetic phosphopeptide or phosvitin for ELISA.

### 製品の特性

製品の状態	Liquid
保存方法	Shipped at 4°C. Store at +4°C short term (1-2 weeks). Store at -20°C or -80°C. Avoid freeze / thaw cycle.
バッファー	PBS with 0.02% sodium azide
精製度	Immunogen affinity purified
特記事項(精製)	Immunoaffinity chromatography with phosphoserine-agarose.
ポリ/モノ	ポリクローナル
アイソタイプ	IgG

### アプリケーション

Our [Abpromise guarantee](#) covers the use of **ab9335** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

アプリ ケーショ ン	Abreviews	特記事項
WB		Use a concentration of 4 µg/ml. Do not use milk as a blocking agent or in diluents, as milk casein is phosphorylated at several serine residues. BSA is recommended instead.
IP		Use at an assay dependent dilution.
ELISA		Use a concentration of 0.5 µg/ml.

## ターゲット情報

<b>関連性</b>	Changes in the serine/threonine phosphorylation state of a protein in response to various external stimuli can have profound effects on cellular signal transduction, apoptosis and carcinogenesis. The reagents, including phosphorylated protein/peptides, antibodies against the phosphospecific amino acid, are important tools to explore the activation of serine, threonine or tyrosine containing proteins. An aberrant protein phosphorylation is a hallmark of human disease, and the enzymes, particularly protein kinases, which control protein phosphorylation are recognized as a major new drug target family.

## Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.co.jp/abpromise> or contact our technical team.

## Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
