

Product datasheet

Recombinant human IGF1 protein ab119455

製品の概要

| | |
|--------|--------------------------------|
| 製品名 | Recombinant human IGF1 protein |
| タンパク質長 | Full length protein |

製品の詳細

| | |
|-----------|--|
| 由来 | Recombinant |
| 由来 | Escherichia coli |
| アミノ酸配列 | |
| アクセッション番号 | P05019 |
| 生物種 | Human |
| 配列 | The sequence of the first 5 N-terminal amino acids was found to be GPETL. N-terminal methionine has been completely removed enzymatically. |
| 分子量 | 8 kDa |
| 領域 | 49 to 118 |

特性

Our [Abpromise guarantee](#) covers the use of **ab119455** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

生理活性 => 1×10^6 U/mg The ED₅₀ as determined by the dose-dependent stimulation of thymidine uptake by BALB/c 3T3 cells is ≤ 1.0 ng/ml.

アプリケーション Functional Studies
SDS-PAGE

精製度 > 98 % SDS-PAGE.
Purity by SDS PAGE is >98%.

製品の状態 Liquid

備考 Endotoxin Level < 0.1 ng/ μ g of IGF1. For long term storage, the addition of a carrier protein is recommended. Storage in frost-free freezers is not recommended. This product should be stored undiluted.

前処理および保存

保存方法および安定性

Shipped at 4°C. Store at -80°C.

This product is an active protein and may elicit a biological response in vivo, handle with caution.

関連情報

機能

The insulin-like growth factors, isolated from plasma, are structurally and functionally related to insulin but have a much higher growth-promoting activity. May be a physiological regulator of [1-14C]-2-deoxy-D-glucose (2DG) transport and glycogen synthesis in osteoblasts. Stimulates glucose transport in rat bone-derived osteoblastic (PyMS) cells and is effective at much lower concentrations than insulin, not only regarding glycogen and DNA synthesis but also with regard to enhancing glucose uptake.

関連疾患

Defects in IGF1 are the cause of insulin-like growth factor I deficiency (IGF1 deficiency) [MIM:608747]. IGF1 deficiency is an autosomal recessive disorder characterized by growth retardation, sensorineural deafness and mental retardation.

配列類似性

Belongs to the insulin family.

細胞内局在

Secreted.

Please note: All products are "FOR RESEARCH USE ONLY AND ARE NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.co.jp/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
