

Anti-Clostridium antibody ab20447

製品の概要

製品名	Anti-Clostridium antibody
製品の詳細	Rabbit polyclonal to Clostridium
由来種	Rabbit
特異性	Reactive with proteins from common Clostridia species. Antiserum is not absorbed and may react with related microorganisms. Reactive (IFA) with Cl. perfringens, Cl. sordellii, Cl. novyi, Cl. septicum, Cl. chauvoei.
アプリケーション	適用あり: ICC/IF
種交差性	交差種: Clostridium
免疫原	Tissue, cells or virus corresponding to Clostridium. Extract of C. perfringens, C. sordellii, C. novyi, C. septicum and C. chauvoei.
特記事項	<p>The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.</p> <p>If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&As</p>

製品の特性

製品の状態	Liquid
保存方法	Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles.
バッファー	Preservative: 0.1% Sodium azide Constituent: 0.0268% PBS
精製度	Protein A purified
ポリ/モノ	ポリクローナル
アイソタイプ	IgG

アプリケーション

The Abpromise guarantee

Abpromise保証は、次のテスト済みアプリケーションにおけるab20447の使用に適用されます

アプリケーションノートには、推奨の開始希釈率がありますが、適切な希釈率につきましてはご確認ください。

アプリケーション	Abreviews	特記事項
ICC/IF		Use at an assay dependent concentration. This antibody may be used in place of neat antiserum in almost any appropriate antibody-based technique and is also suitable for conjugation purposes.

ターゲット情報

関連性	Clostridia are toxin-producing anaerobic bacteria that cause a number of serious diseases, including tetanus, botulism, and tissue infections. Clostridia normally inhabit the human intestinal tract, soil, and decaying vegetation. All species of clostridia produce toxins. Some clostridial diseases, such as botulism and the various diarrheal illnesses, result solely from the toxin without any bacterial invasion of tissue. In other clostridial diseases, such as tetanus and clostridial wound infections, there is both tissue invasion and toxin production.

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.co.jp/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
