### Product datasheet

## Goat Anti-Rabbit IgG H&L ab2892

製品の概要

製品名 Goat Anti-Rabbit lgG H&L

由来種 Goat

**ターゲット生物種** Rabbit

特異性 This antibody cocktail reacts with heavy and light chains on rabbit lgG and mouse lgG (reacts with

all IgG subtypes).

アプリケーション 適用あり: IHC-P, IHC-Fr, ICC

製品の特性

製品の状態 Liquid

保存方法 Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C or -

80°C. Avoid freeze / thaw cycle.

パップァー Constituents: 0.04% Proclin 300, 0.5% Proclin 950, 99% Water

特記事項(標識) HRP or AP conjugated to a polymer backbone, which is collectively conjugated to the antibody.

The end result is two antibody subsets: 1) Multiple HRP molecules linked to goat anti-rabbit

antibodies. 2) Multiple AP molecules linked to goat anti-mouse antibodies.

**ポリ/モノ** ポリクローナル

アイソタイプ IgG

特記事項 This product is specially designed for a rapid double stain procedure. The overall staining

procedure can be done in 4 steps and in less than two hours. Avidin-biotin blocking procedures are not necessary when using this product. This new and innovative AP and HRP polymerization technology provides a significant increase in staining sensitivity when compared to other

conventional AP or HRP conjugated secondary antibodies.

This product is provided in a pre-diluted, ready-to-use format. Procedure (adapt in-house protocols to accommodate): 1) A primary antibody cocktail with a rabbit monoclonal/polyclonal and a mouse monoclonal/polyclonal antibody must be applied for the standard duration. Rinse in TBS. (DO NOT USE PBS). 2) Apply ab2892 for 20 - 30 minutes then rinse in TBS (DO NOT USE PBS). 3) Chromogen 1: Develop AP using suitable chromogen. Rinse in TBS. 4) Chromogen 2: Develop HRP using suitable chromogen. Rinse in TBS. Equally suited to both manual and automated immunostaining proceedures. This product has not been tested in any application requiring further dilution of the antibody and therefore it is not recommended for use in such

applications.

1

The Abpromise guarantee Abpromise保証は、次のテスト済みアプリケーションにおけるab2892の使用に適用されますアプリケーションノートには、推奨の開始希釈率がありますが、適切な希釈率につきましてはご検討ください。

アプリケーション	Abreviews	特記事項
IHC-P		1/1.
IHC-Fr		1/1.
ICC		1/1.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

### Our Abpromise to you: Quality guaranteed and expert technical support

- · Replacement or refund for products not performing as stated on the datasheet
- · Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- · We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <a href="https://www.abcam.co.jp/abpromise">https://www.abcam.co.jp/abpromise</a> or contact our technical team.

#### Terms and conditions

• Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
